

## PUBLIC NOTICE

### DEPARTMENT OF PUBLIC WORKS

#### REMOVAL OF APPLIANCES WITH FREON

The City of Fruitland will impose a fee of \$25.00 (each) for the collection of refrigerators, freezers, air-conditioners or other appliances where Freon has not been removed from the unit. Cooling units which have no coolant remaining will continue to be collected free of charge. An appliance which has had the coolant removed must be so certified by an appropriate authority. City residents are encouraged to contact the City Department of Public Works if they wish the City to pick up a cooling appliance. This policy was adopted by the City Council to comply with regulations of the Wicomico County Landfill. For further information contact Public Works Director Cooper Townsend at 410-548-2807.
